

D E S C R I P T I O NPRODUCT COVERED:

Component - Thermostat, Cat. No. ST-22.

GENERAL:

The devices are non-adjustable, bi-metal type, single-pole, single-throw thermostats. The contacts open on temperature rise.

RATINGS:

Resistive: 125/250 V ac, 8/5 A

Incandescent Lamp: 125/250 V ac, 4/2 A

Fluorescent Lamp/Ballast: 250 V ac, 1 A

*Maximum Operating Temperature: 130°C

(Note: All above ratings tested at 10,000 cycles Endurance)

ENGINEERING CONSIDERATIONS (NOT FOR FIELD REPRESENTATIVE'S USE):

Use - For use only in complete equipment where the acceptability of the combination is determined by Underwriters Laboratories Inc. Evaluated to UL 873 the UL Standard for Temperature Indicating Equipment, Eleventh Edition, dated 4-3-96.
