

# Ribbon Cable connector Compliant with MIL Standard

## HIF3B Series

### ■Features

#### 1. Product Compliant with MIL Standard

HIF3B series has been developed as a product compliant with MIL standard, and used for wide applications.

#### 2. UL Approval Product

HIF3B series connectors are UL approved.

#### 3. Mechanism to Prevent Mis-insertion

This connector is equipped with the mechanism to prevent Mis-insertion as follows.

- ① The system provides the convex area to insert the guide-key on the pin header side, and to guide it in combination with the socket convex area (MIL standard).
- ② The system embeds and guides the polarizing key in the socket holes.

#### 4. Applicable Cable AWG#28

The applicable cable is UL2651 AWG#28 flat cable (7 cores./ 0.127mm, jacket dia. 0.9±0.1mm).

### ■Product Specifications

Rating	Rated Current : 1A	Operating Temperature Range : -55~+85°C (Note 1)	Storage Temperature Range : -10~+60°C (Note 2)
	Rated Voltage : 200V AC	Operating Moisture Range : 40~80%	Storage Humidity Range : 40~70% (Note 2)

Item	Specification	Condition
1. Insulation Resistance	1000MΩ min.	Measured at 500V DC
2. Withstand voltage	Neither short or breakdown	650V AC rms for 1 minute
3. Contact Resistance	15mΩ max.	Measured at 0.1A
4. Vibration	Electrical discontinuity, 1μS max.	10~55Hz and single amplitude 0.75mm in 3 directions for 2 hours
5. Moisture Resistance	Insulation resistance: 1000MΩ min.	Exposed to temperature 40±2°C and humidity 90~95% for 96 hours
6. Temperature Cycle	No defect such as crack or split occurs	(-65°C: 30 minutes → 15~35°C: 5 minutes max. 125°C: 30 minutes → 15~35°C: 5 minutes max.) 5 cycles
7. Operating Life	Contact resistance: 15mΩ max.	500 cycles
8. Resistance to Soldering heat	No resin area fusion to degrade performance	Automatic soldering: 260°C for 10 seconds
		Manual soldering: Soldering iron temperature: 300°C for 3 seconds

Note 1: Temperature rise is included when energized.

Note 2: This storage indicates a long-term storage state for the unused product before the board mounted.

The operating temperature and moisture ranges are applied to the non-energized state after the connector has been installed to the board.

Note 3: The above standards represent this series. Individual formal agreement should be based on the "Delivery Specification".

### ■Material

Part	Material		Finish		Remarks
Insulator	PBT		Black		UL94V-0
Socket Contact	D	Beryllium copper	Connection area	Gold plating	_____
			Connection area	Gold plating	
	DA	Copper alloy	Connection area	Gold plating	
			Connection area	Solder plating	
Pin header contact	Brass		Selective gold plating		_____

■Ordering Information

Please determine the specific product. If needed, select and order the product from the product No. as listed on catalog pages B17~B32.

## A black plastic component, likely a connector or bracket, with multiple pins and a latch mechanism. It has a long, narrow body with a series of pins along the bottom edge. The top edge features a latch mechanism on the right side and a smaller connector on the left. The component is shown against a white background.

Technical drawing of a shaft with the following dimensions and features:

- Overall length:  $F \pm 0.15$
- Left end diameter:  $2.1$
- Left end step:  $1.52$
- Keyway width:  $0.5$
- Keyway depth:  $2.3$
- Keyway diameter:  $2-\phi 2.7$
- Feature: Note 3

Use the screw of (board thickness) +4 mm under the neck.

### ■ Four Wall Lapping Type

## PCB Footprints

■n=number of contacts

Note 1, Note 2. The number of polarizing slot and key installed positions changes according to products. Refer to the list as shown below.

Note 3. The spacer moves to the right according to the number of contacts.

Note 4. The 10, 50, 60 and 64 contact connectors consists of two types.  
Use products, confirming (Note 1) (Note 2).

Note 5. The mark \* indicates the number of contacts.

Note 6. The nut built-in specification product is also provided.

The product can be fixed by M2 screws from the rear side.  
Use the screw of (board thickness) +4 mm under the neck.

## ◆Combination Pattern

Note : Fix the HIF3-mounting hole spacer by screws between upper stage and lower stage connectors.

## ◆PCB Footprints

## ■Mounting Hole Spacer

Product No.	HRS No.	Finish
HIF-3 mounting hole spacer	CL562-0714-4	PBT Black

Note : 2 pieces are contained in a bag.

# ◆Polarizing Key

HIF3B-GK  
CL562-0601-8

HIF3-GPIN(A)

Note1: One unit of this product is a set of five pieces in conjunction with a runner. The unit for sale is defined one pack containing 20 pieces.

Note2: This product is applicable to HIF3A-\*D2.54R, HIF3C-\*D2.54C and HIF3BA-\*D2.54C products.

Product No.	HRS No.	Material	Remarks
HIF3-GPIN(A)	CL562-0126-6	Poly acetal (white)	A set of 5 pieces

HIF3BA-GPIN

Note1: One unit of this product is a set of five pieces in conjunction with a runner. The unit for sale is defined one pack containing 20 pieces.

Note2: This product is applicable to the HIF3BA-\*D2.54R product.

Product No.	HRS No.	Material	Remarks
HIF3BA-GPIN	CL612-0500-2	Poly acetal (white)	A set of 5 pieces

## ◆HIF3-Multi Clamp

This clamp is used for intermediate connection in the bus-line system, etc. Remove compulsory force from the insulation displacement area of the connector in intermediate connection.

Note: The pin header corresponds to the HIF3BAE series (lock E).

## ◆HIF3-\*CL Pull Tab

This pull tab is used for the HIF3 series equipped with cable clamp function. Remove all compulsory force, which is loaded on the insulation displacement area of the connector for extraction.

Note: This HIF3-\* Pull Tab can not be used for HIF3BA-\*PD.

Note: The pin header corresponds to the HIF3BAE series (lock E).

## ◆Lock

### ●Low Profile Lock Pin Header

#### Lock G

Product No. : HIF3BAG-\*\*PA-2.54DSA

- Low profile type, and used for lock ejection. Connector height is reduced. Since no connector clamp is needed on the cable side, this is used without turning back on the cable side. Take care about this point.

### ●F Type Lock Pin Header

#### Lock F

Product No. : HIF3BAG-\*\*PA-2.54DSA

- Locking range more reduced than conventional lock type. Even if connectors are aligned laterally, the mounting space is reduced.
- Note : The clamp must be replaced for HIF3A socket type 50 contacts only. Take care about this point.
