

## HiFiBerry DAC+ Light

The HiFiBerry DAC Light is a high-quality digital-to-analog converter for the Raspberry Pi (newer models with 40 pin GPIO connector). It is designed as a cost-effective alternative to the HiFiBerry DAC+ for price sensitive users, that don't need all features of the HiFiBerry DAC+.

### Facts

- Dedicated 192kHz/24bit high-quality DAC for great sound quality (based on an high-quality ESS DAC chip with external low-jitter clock).
- Connects directly to the Raspberry Pi, no additional cables needed
- No soldering Comes as a pre-fabricated kit. You just plug it onto the Raspberry Pi
- Compatible with Raspberry Pi models A+,B+ and 2B
- Directly powered from the Raspberry Pi, no additional power supply
- Low-noise voltage regulator for optimal audio performance
- Comes with all components required to mount it. We include 4 M2.5x12mm spacers to fix the board onto the Raspberry Pi.
- Does not feature hardware volume control – however most programs feature software volume control.

Dimensions without package	5.5 x 6.5 x 2 cm
Dimensions including package	9.5 x 7.5 x 2.5 cm
Weight	0.02 kg
GTIN	4260439550071

### Usage recommendations

- small and elegant music playback devices
- home automation and multi-room audio systems
- solutions that require high-quality sound but still needs a costs-effective solution

The board design is the same than the standard HiFiBerry DAC+, the DAC+ light fits in all HiFiBerry DAC+ cases.

Modul 9 GmbH Bachmattstrasse 14, CH-8932 Mettmenstetten
